Download Files

Cadencii

The screenshot shows the Cadencii wiki page. The browser address bar is www9.atwiki.jp/boare/. The page title is "cadencii_jp @ wiki". The main content area is titled "Cadencii" and includes a description in Japanese: "Cadenciiとは VOCALOID / VOCALOID2システムが使用するvsqファイルを編集するソフトウェアです。VOCALOID / VOCALOID2がインストールされていれば、リアルタイム再生やWAVEファイルへのレンダリングが出来ます。また、UTAUのコア機能を使っのリアルタイム再生・WAVEファイル作成が可能です。" Below the description is a video player showing a video titled "foo狙ったなwww dildo vagina ゴマヴェー? I have a hard time importing UTAU's in Cadencii, help? PENIS I want to hear ...". At the bottom, there is a "ダウンロード" (Download) section with two links: "Windows版 Cadencii_v3.4.1.zip (6.7MB)" and "Macintosh版 Cadencii_v3.4.1.dmg (42.5MB)".

Ritsu Connect

The screenshot shows the Ritsu Connect download page. The browser address bar is hal-the-cat.music.coocan.jp/ritsu_e.html. The page has a yellow background and a dark brown header with the word "Download". Below the header, there is a link "Ritsu.zip(mirror)" with "(405MB)" underneath it. Below that, there is a note: "-12/02/07 Make the system fast (.exe file only)". There is another dark brown header with the text "Make It Connect!". Below this, there is a paragraph of text: "You can make a Connect Library from Utau v.b.s wit instruction is written in Japanese. Use Compressor and then use Transcriber. StandConv MakeItConnect.zip: Console ver."

http://hal-the-cat.music.coocan.jp/ritsu_e.html

Or you can also download Ritsu Connect from the URL below

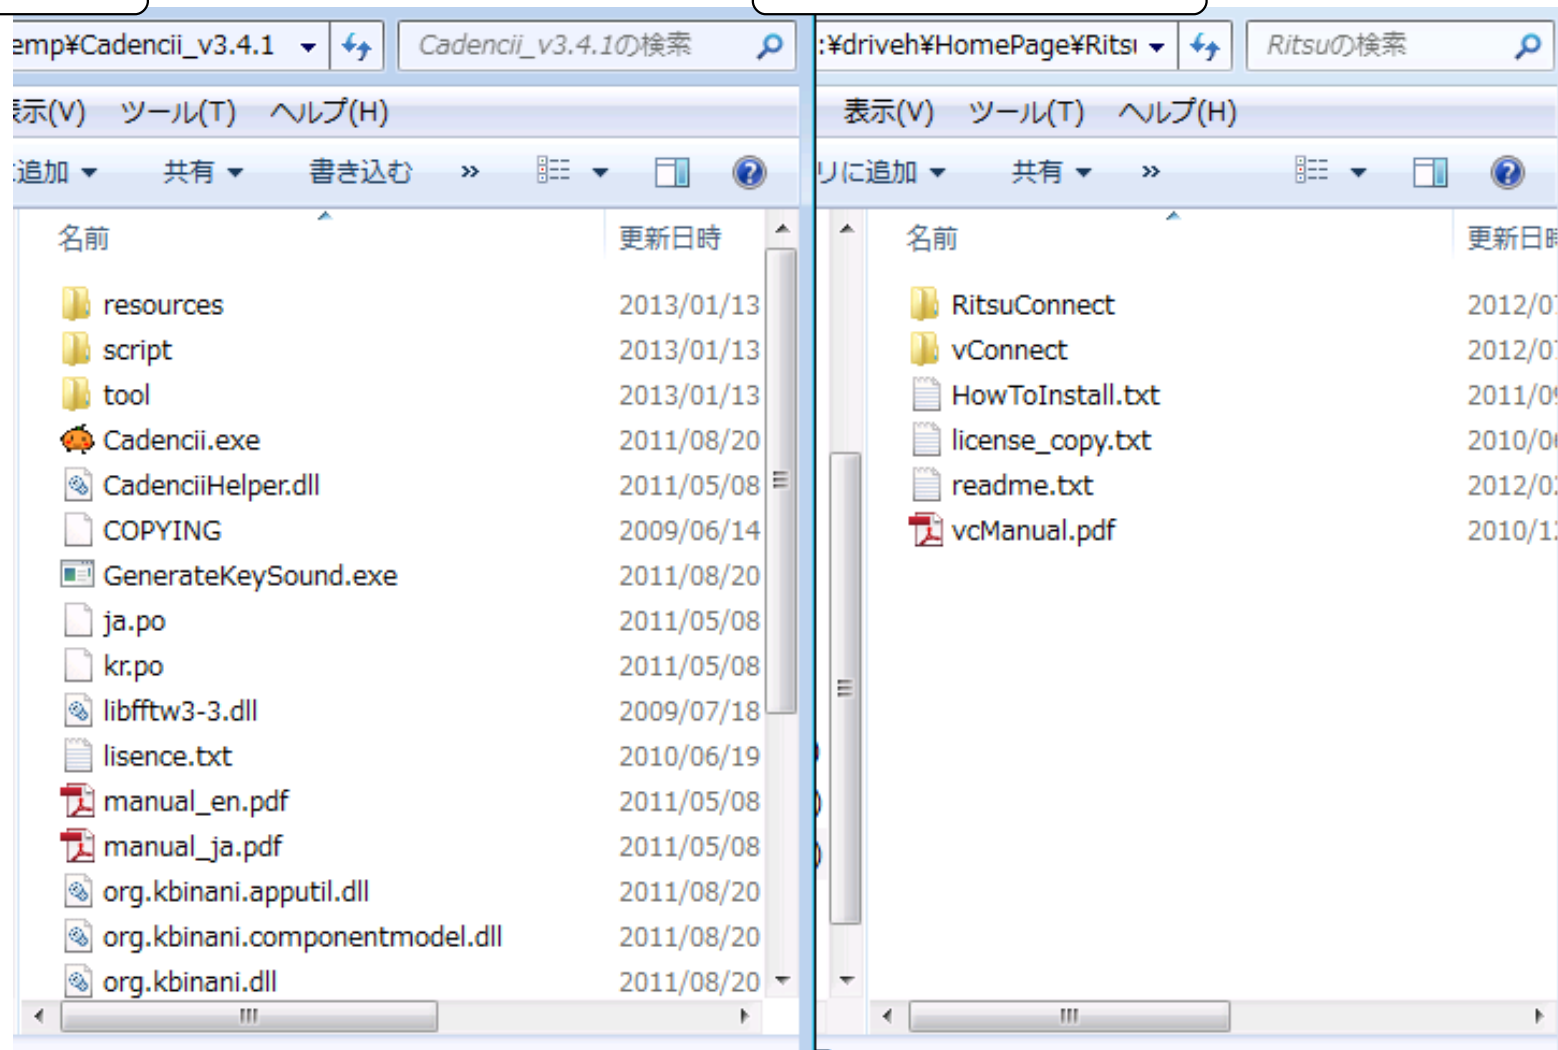

<http://www.canon-voice.com/>

<http://www9.atwiki.jp/boare/pages/18.html>

Unzip both files

Cadencii

Ritsu Connect

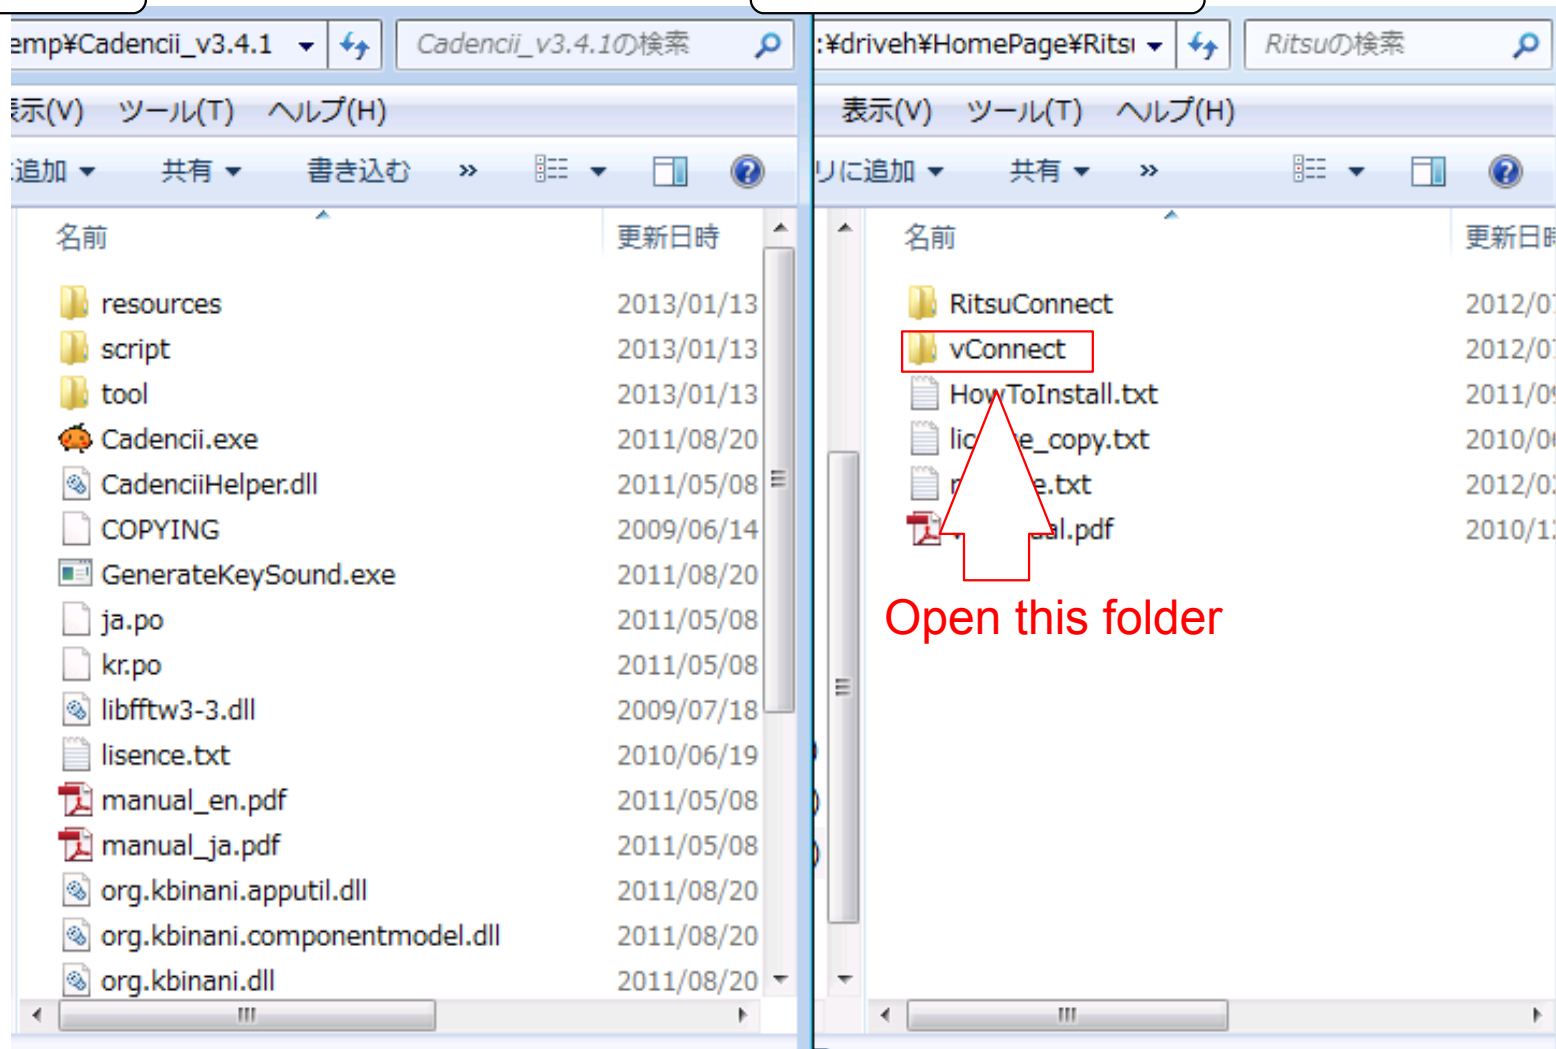

You'll get these two folders.

Copy files in 'vConnect' folder(1/3)

Cadencii

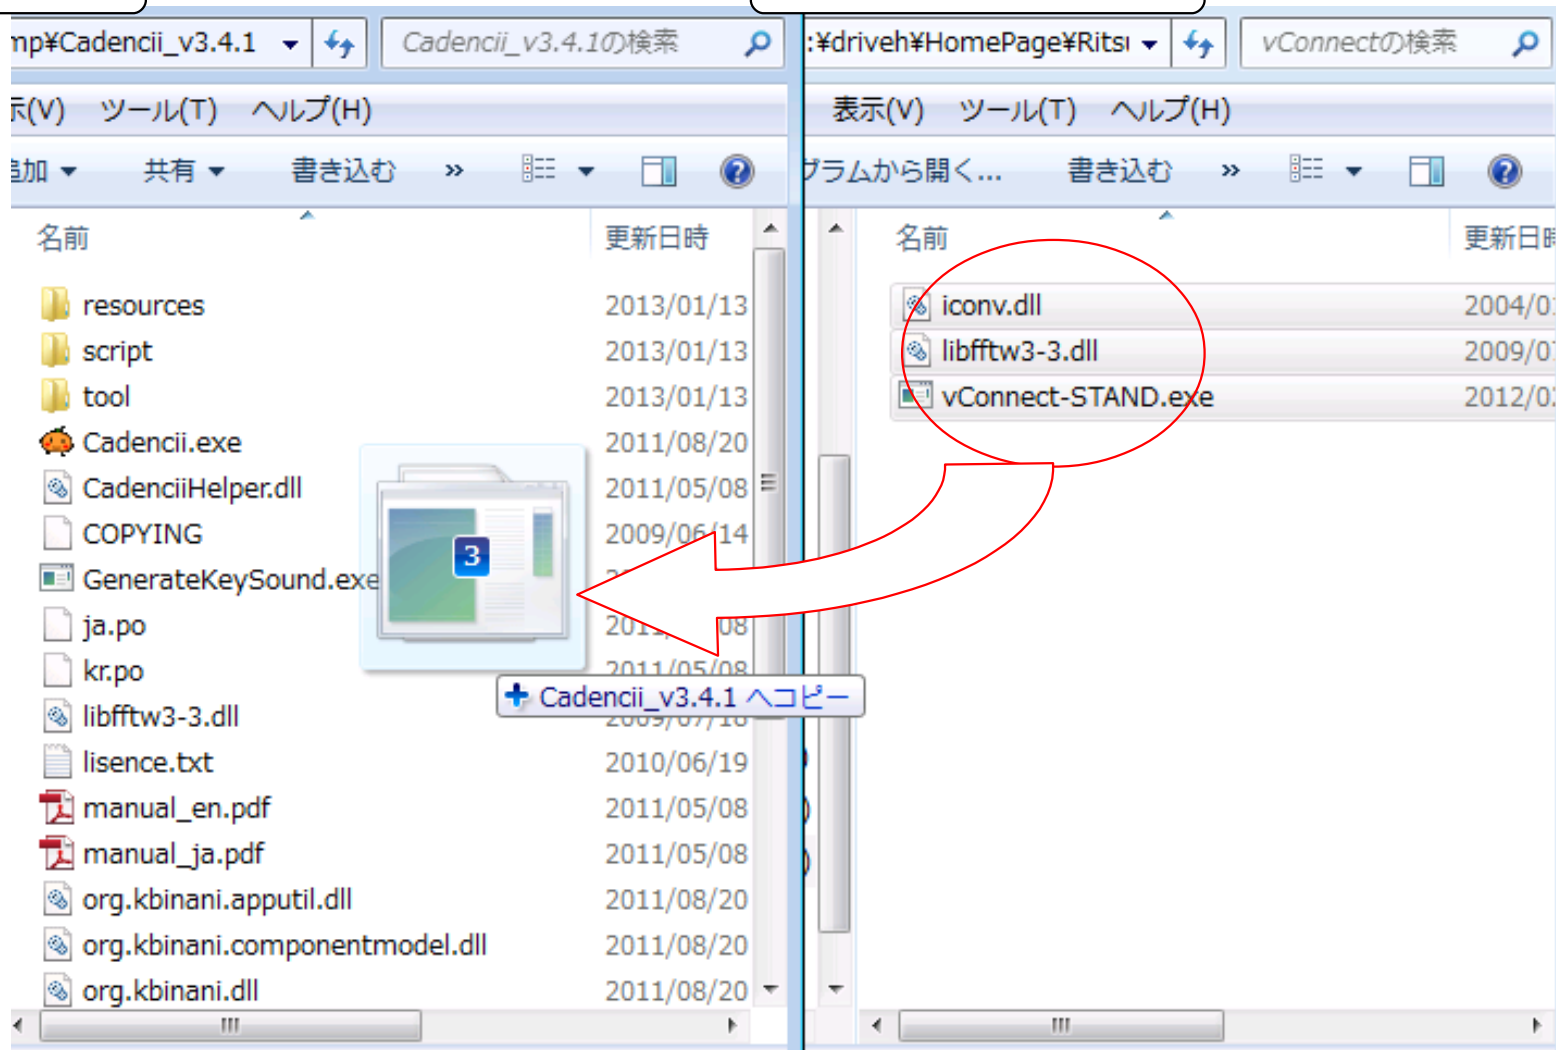

Ritsu Connect

Copy files in 'vConnect' folder(2/3)

Cadencii

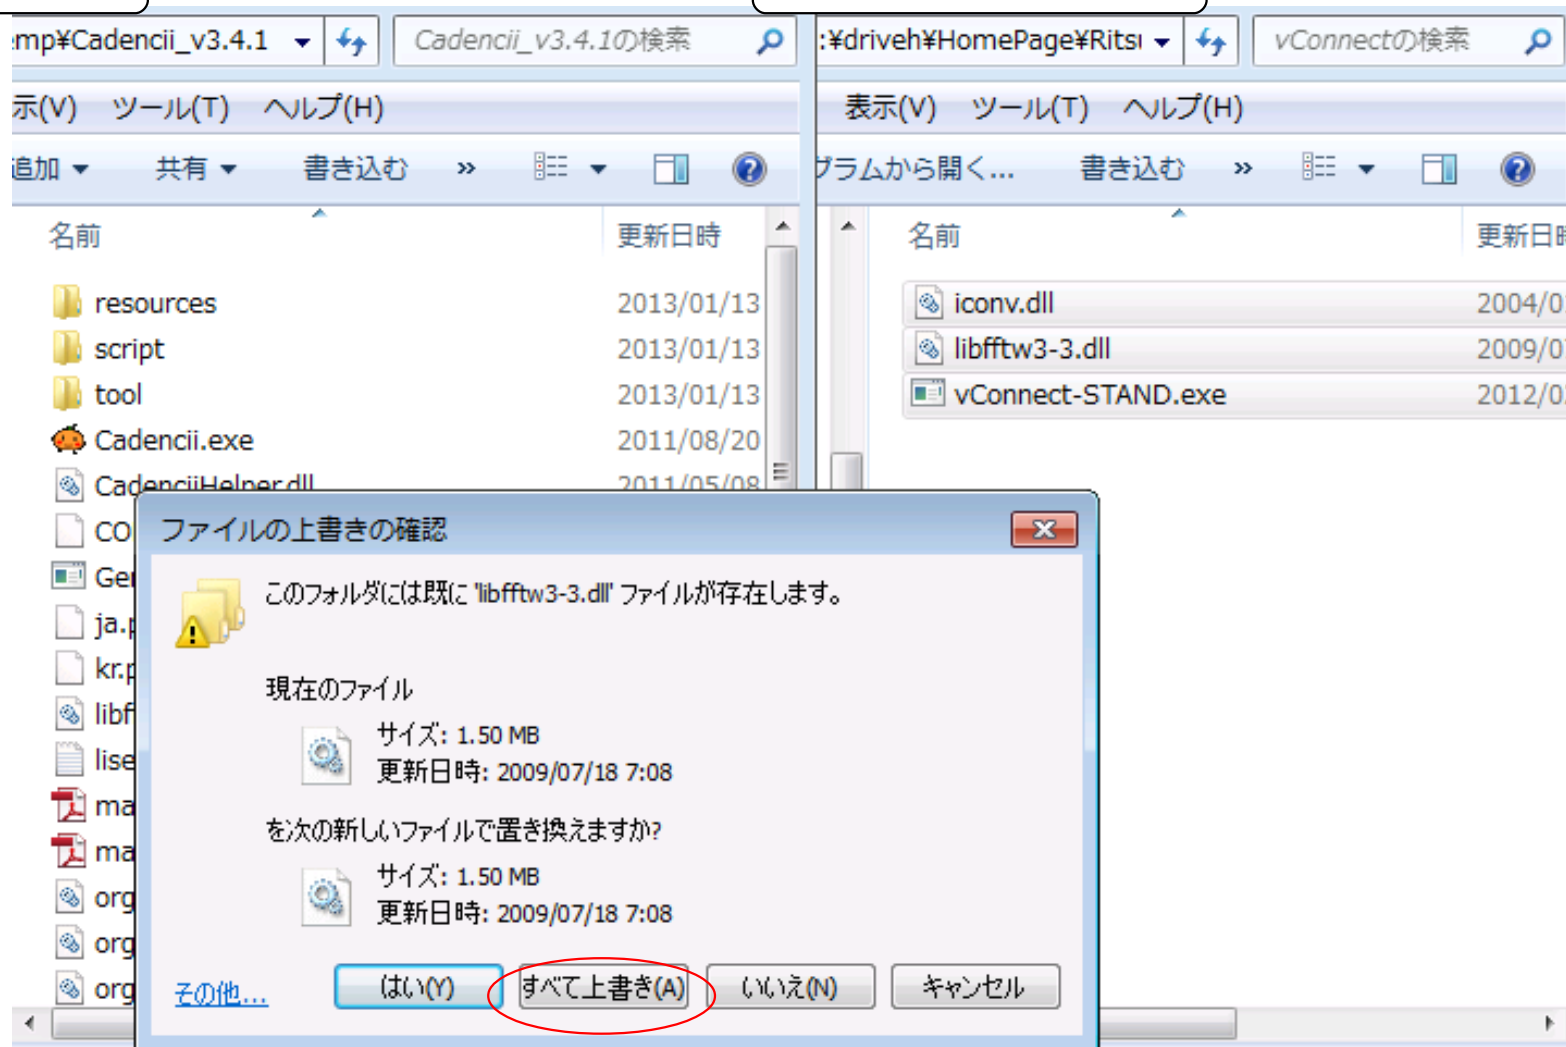

Ritsu Connect

Copy files in 'vConnect' folder(3/3)

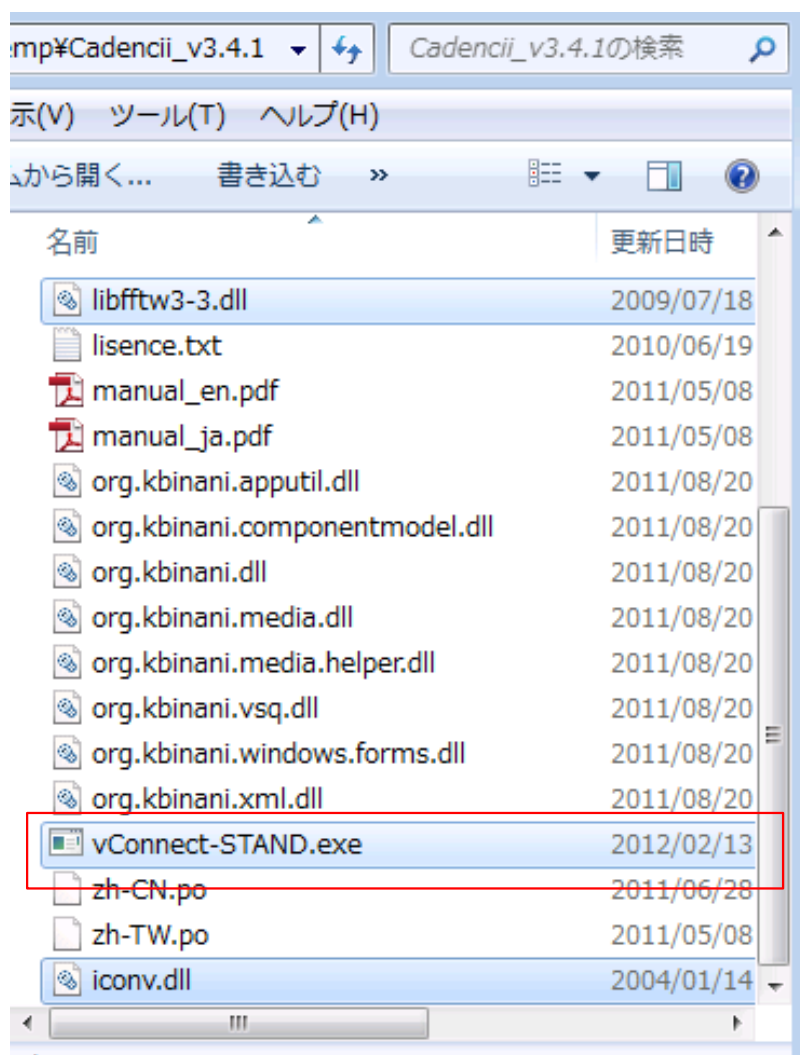

Cadencii

Ritsu Connect

Overwrite all

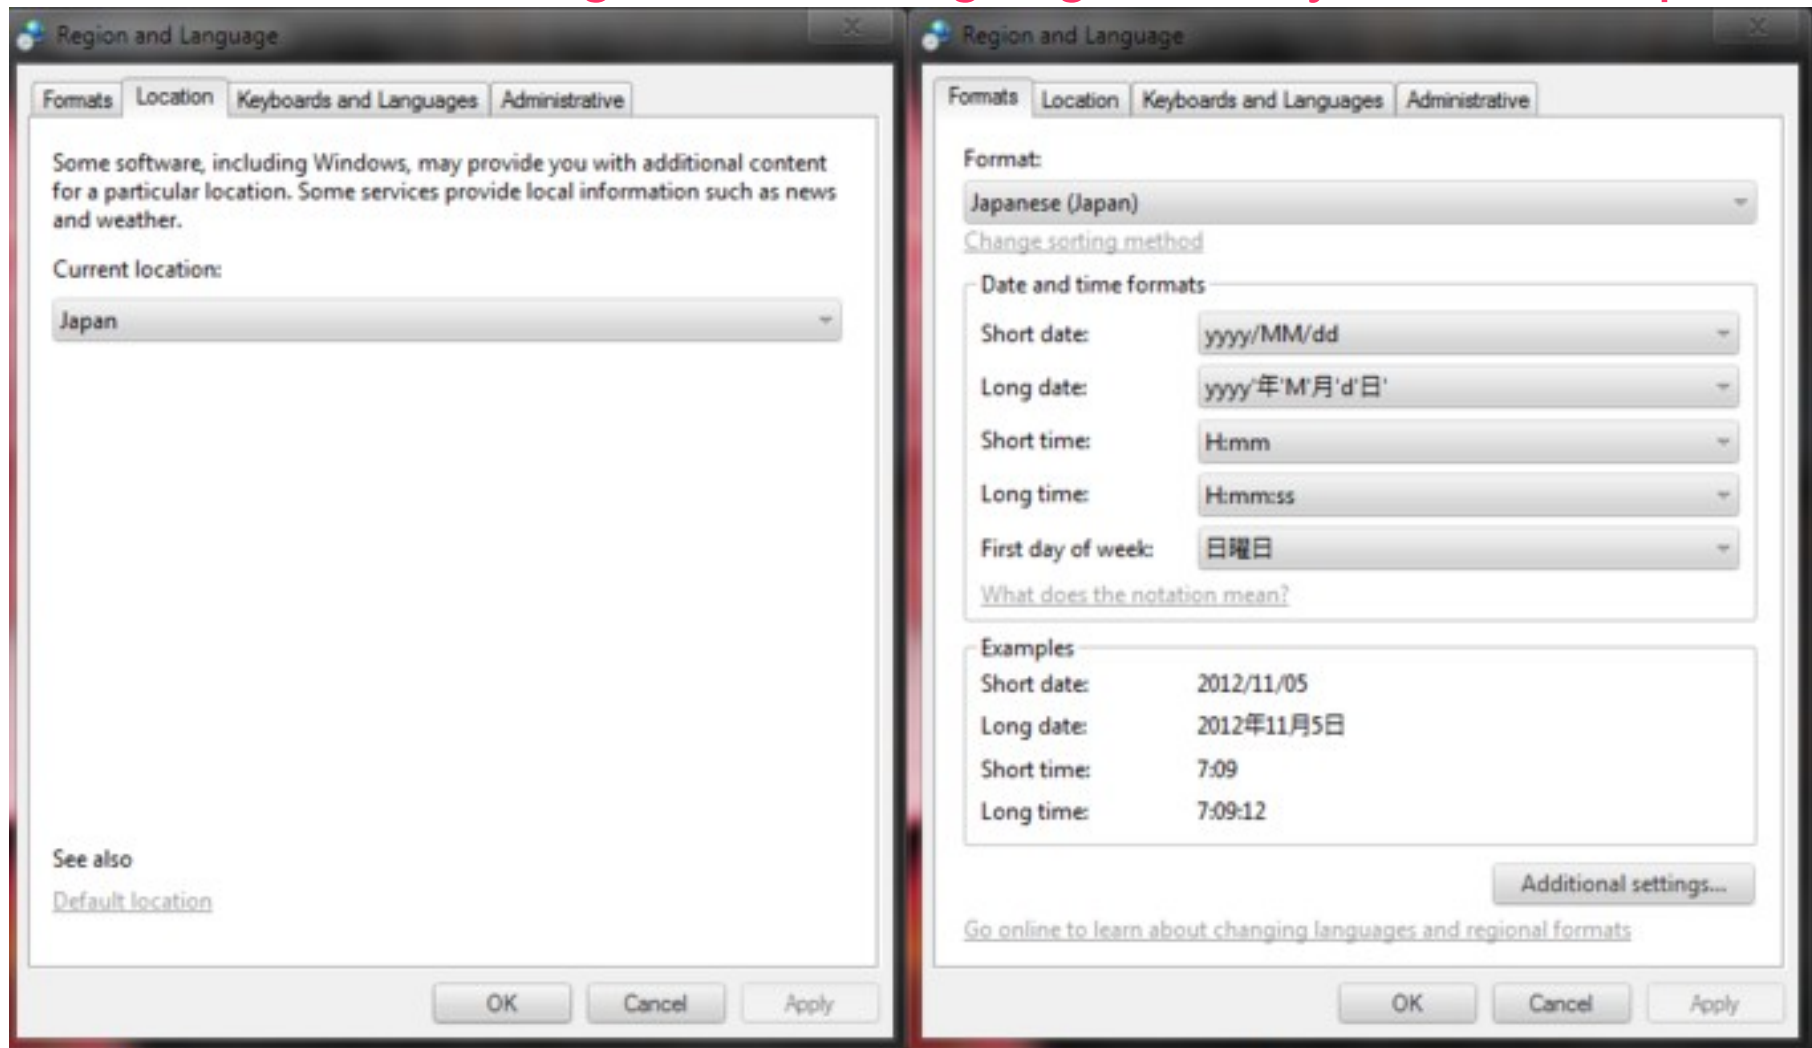

Run vConnect-STAND

- Double-click vConnect-STAND.exe
 - If an error occurs
 - Runtime is required. Get VC2008 runtime
 - <http://bit.ly/lofjLo>
 - You might fail to copy some DLLs in the vConnect folder.

Change your locale of Windows

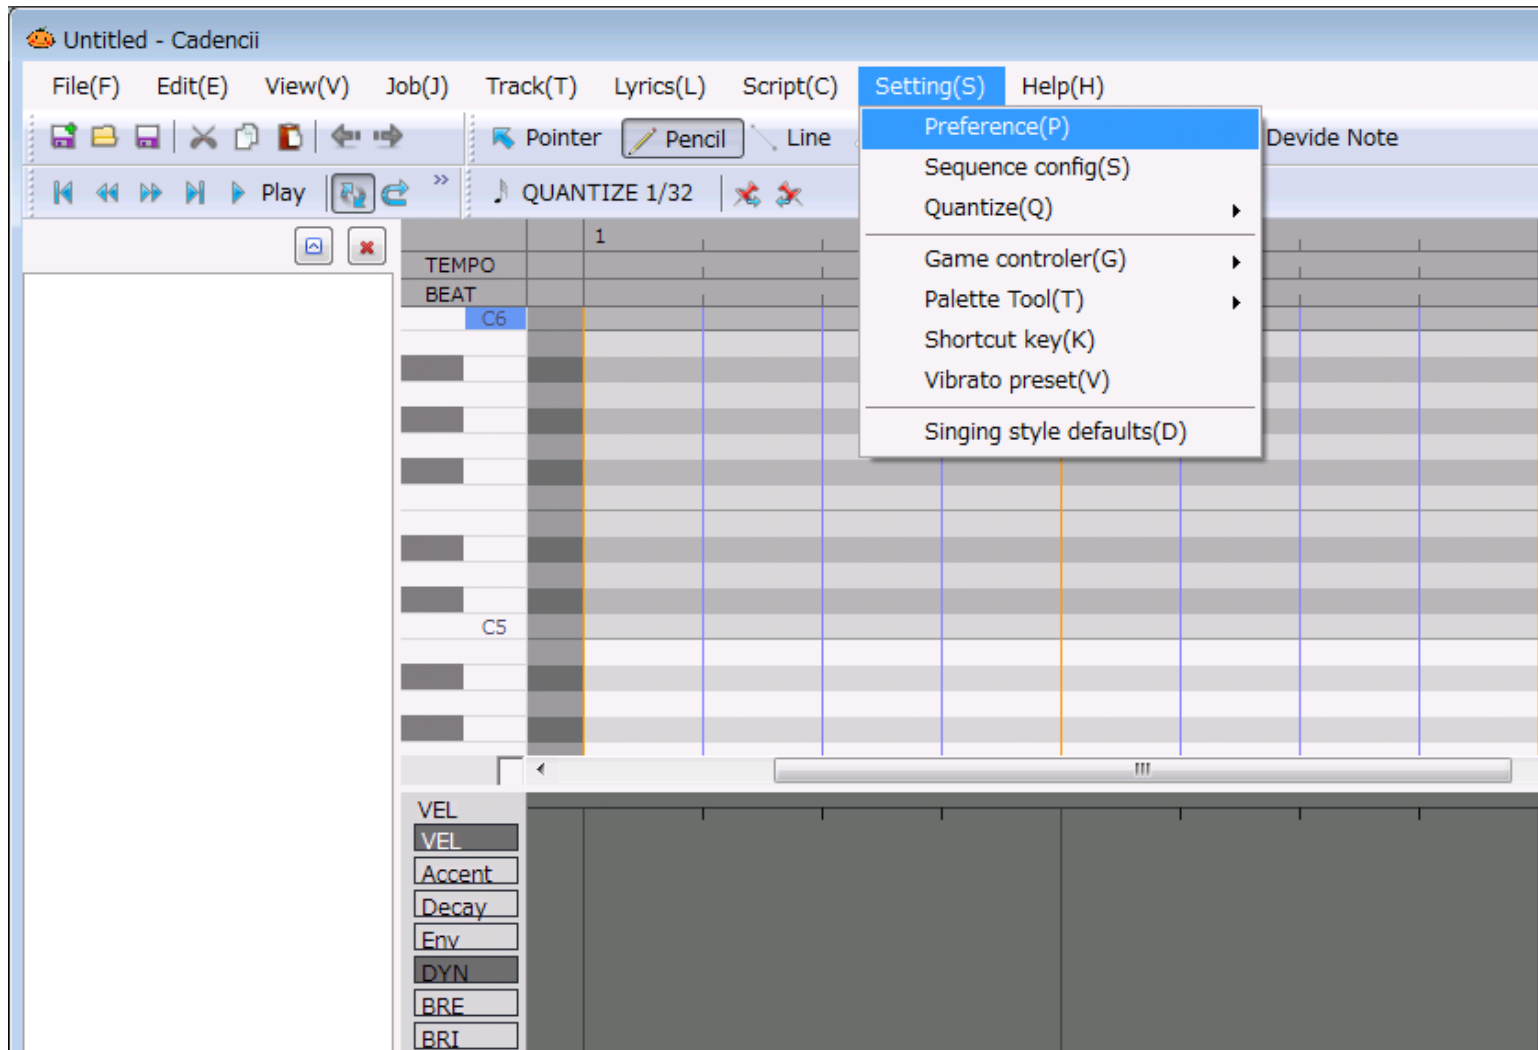

You can access '*Region and Language*' from your control panel.

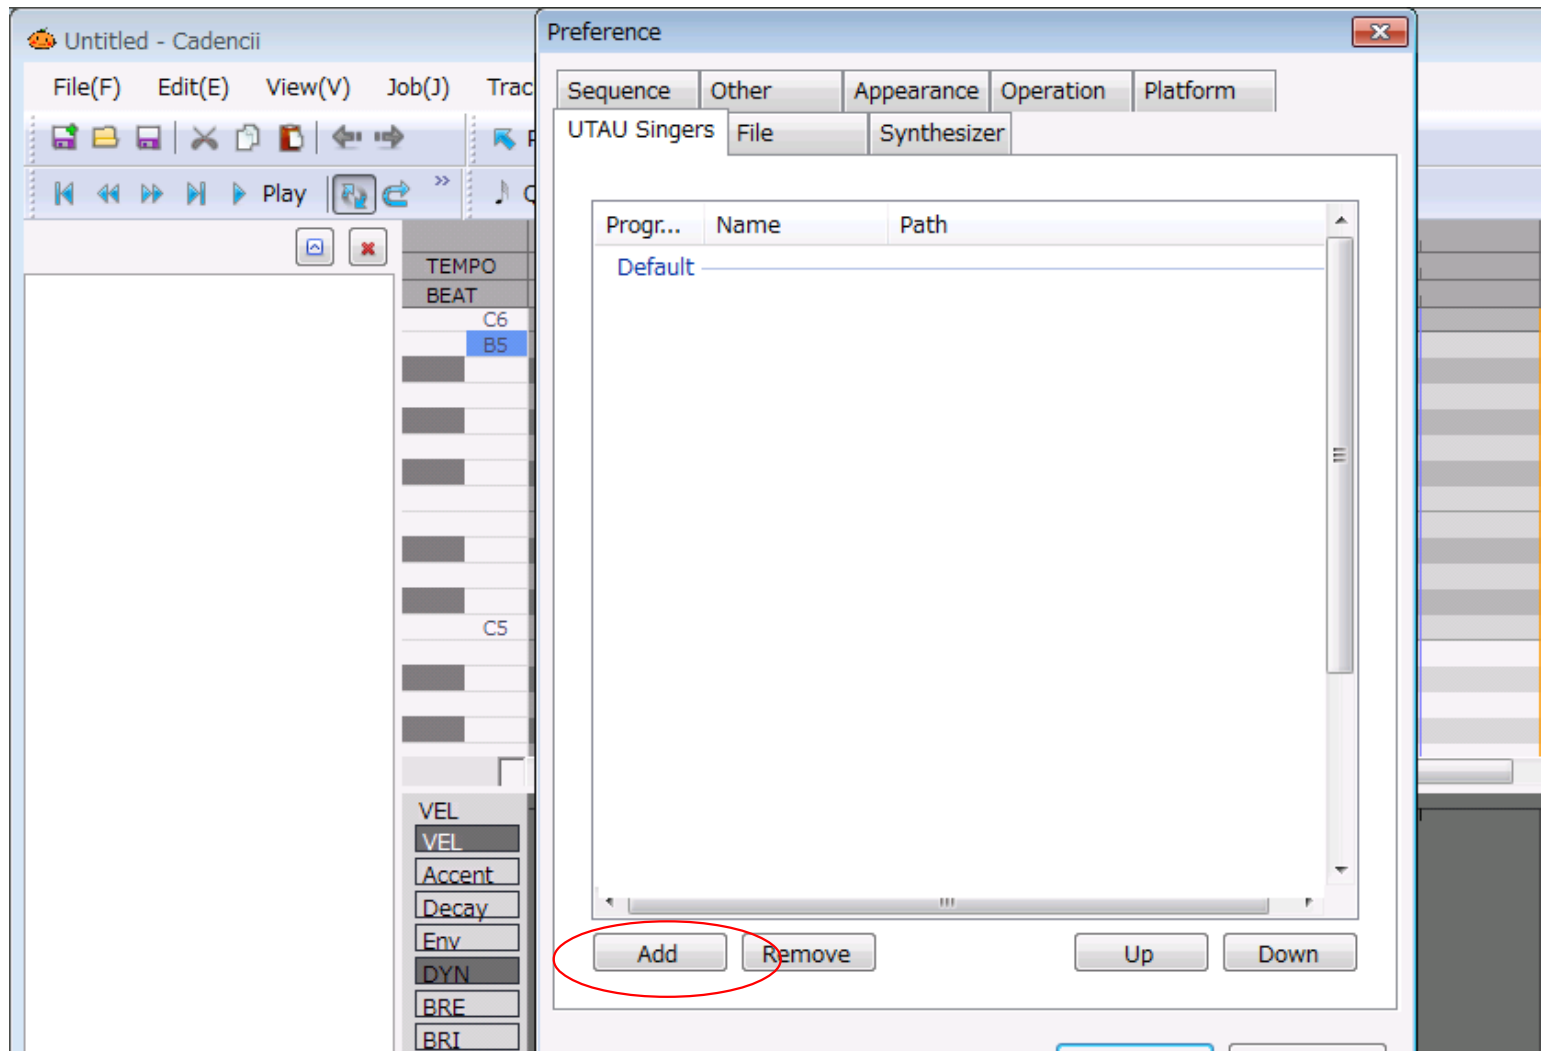

Run Cadencii

The screenshot displays the Cadencii software interface. The title bar reads "Untitled - Cadencii". The menu bar includes "File(F)", "Edit(E)", "View(V)", "Job(J)", "Track(T)", "Lyrics(L)", "Script(C)", "Setting(S)", and "Help(H)". The toolbar contains icons for file operations (save, open, print, copy, paste, undo, redo) and editing tools (Pointer, Pencil, Line, Eraser, Grid, Curve, Devide Note). The playback controls show "Play" and "Quantize 1/32" options. The main workspace is a piano roll with two measures, labeled "1" and "2". The tempo is set to "QUANTIZE 1/32". The piano roll shows a sequence of notes on a keyboard, with a tempo change indicated by a vertical line between measures 1 and 2. The bottom panel shows various parameters for the notes, including "VEL", "Accent", "Decay", "Env", "DYN", "BRE", and "BRI".

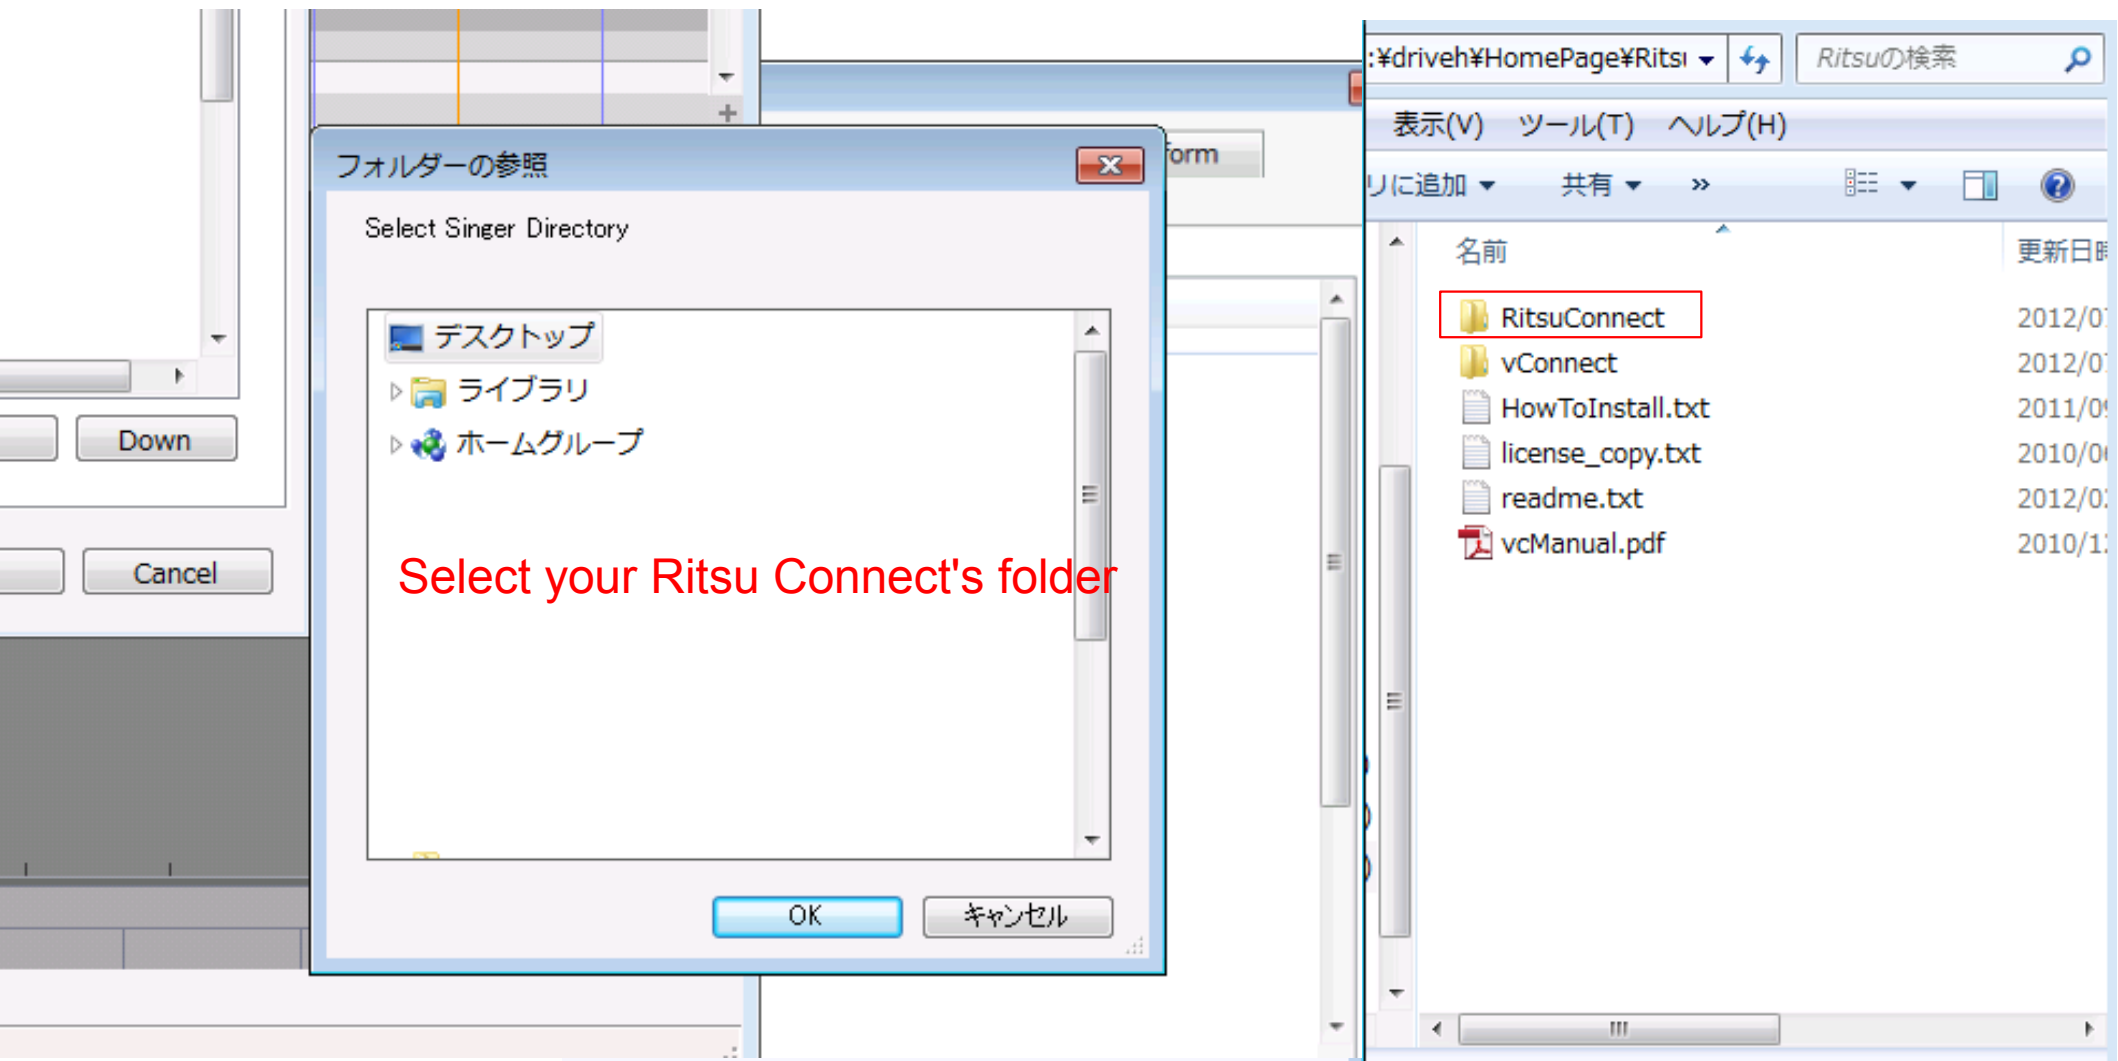

Register Ritsu Connect(1/3)

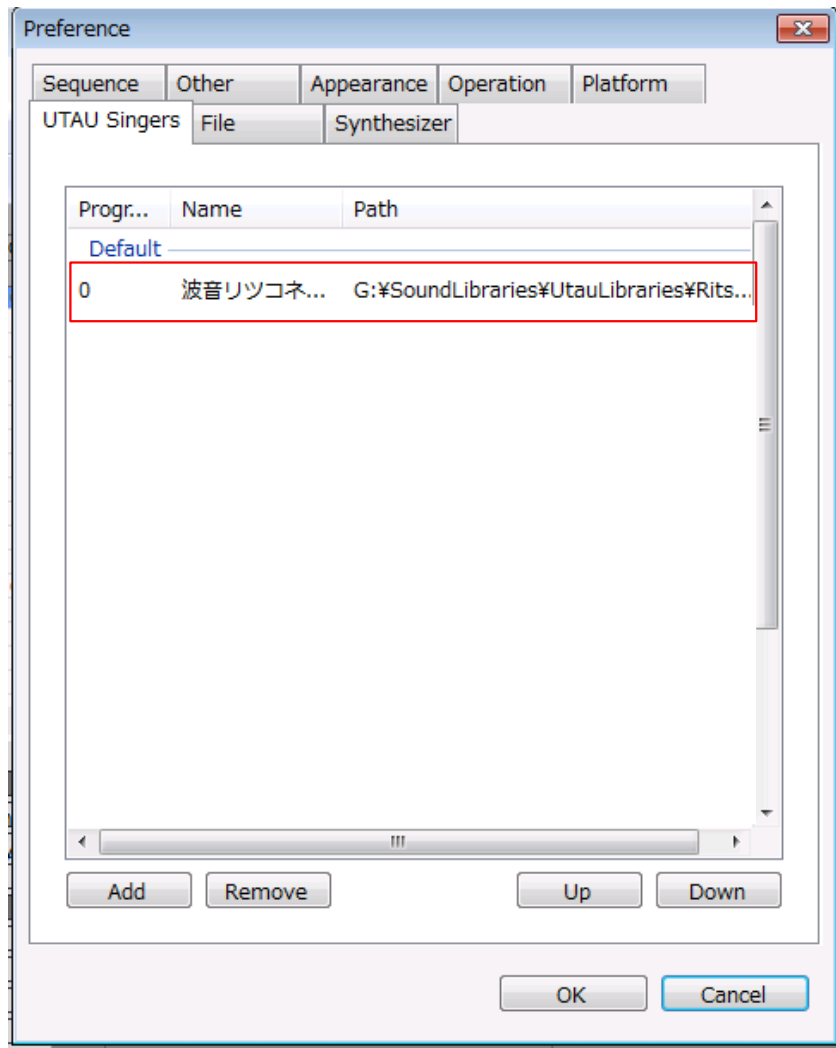

Register Ritsu Connect(2/3)

Register Ritsu Connect(3/3)

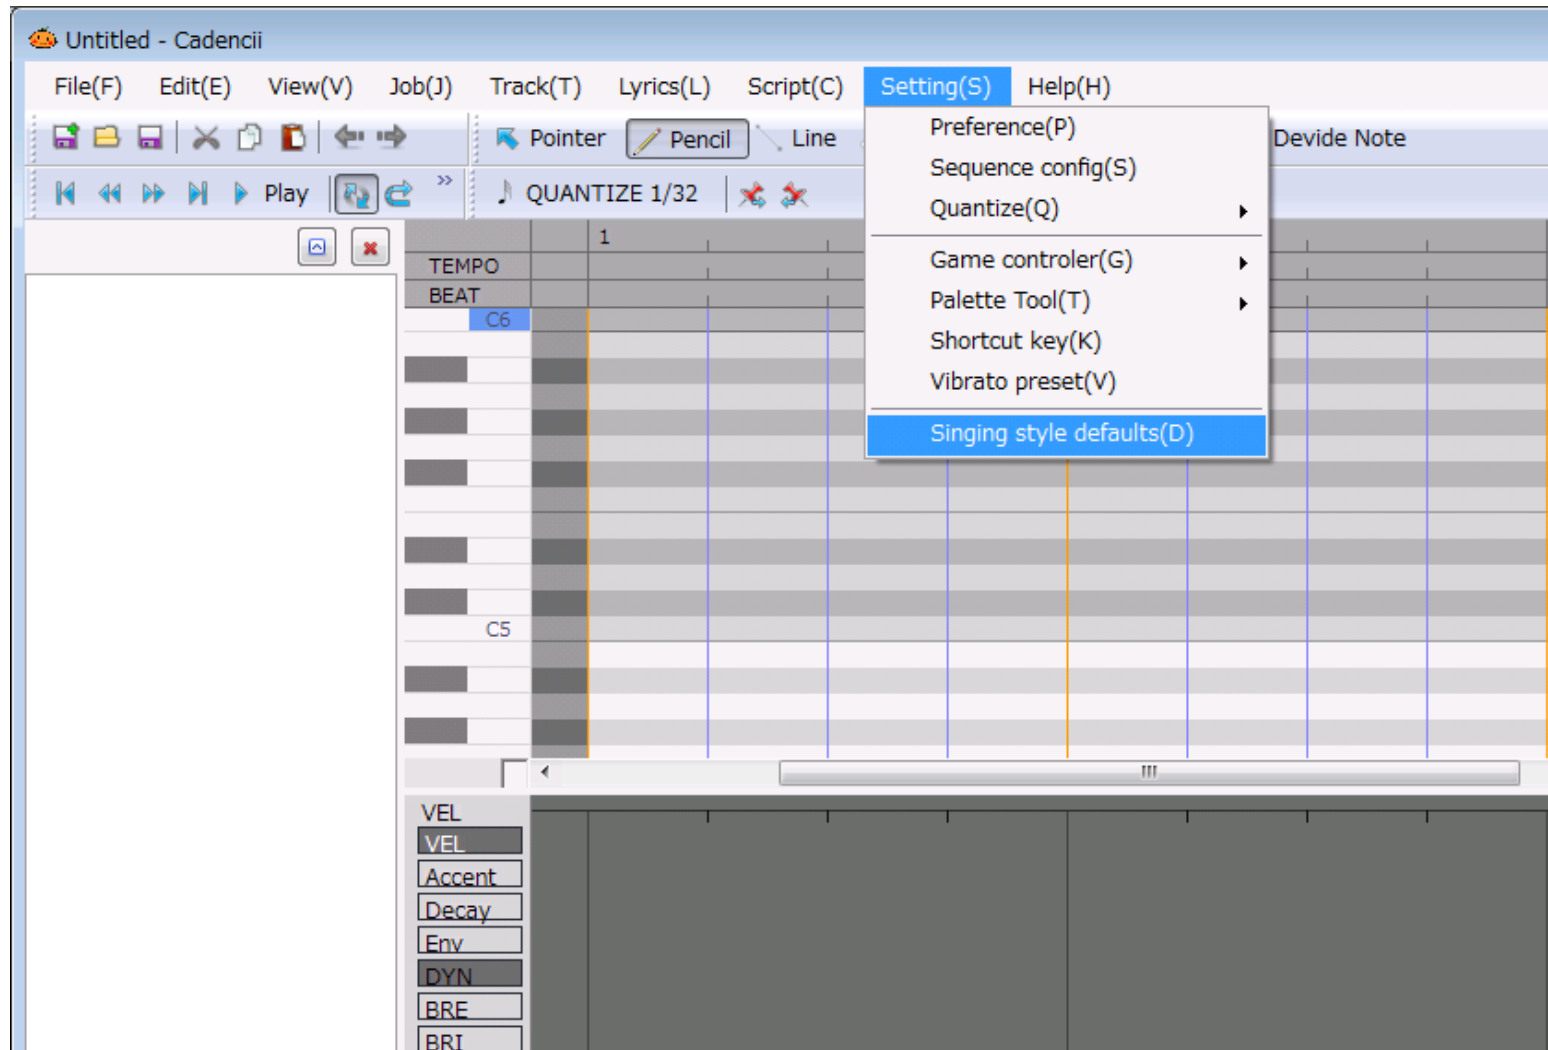

Now you can use Ritsu Connect

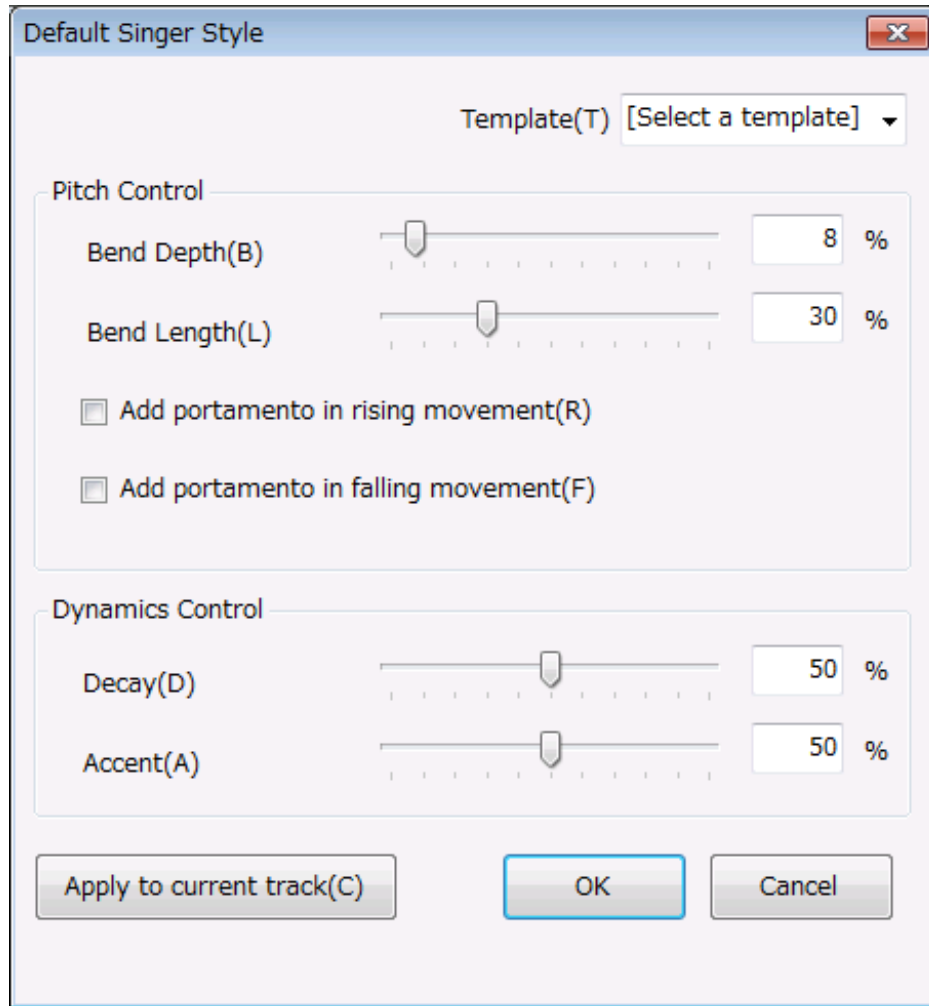

- If “波音リツコネクト” is added, installation is completed.

Style Settings(1/2)

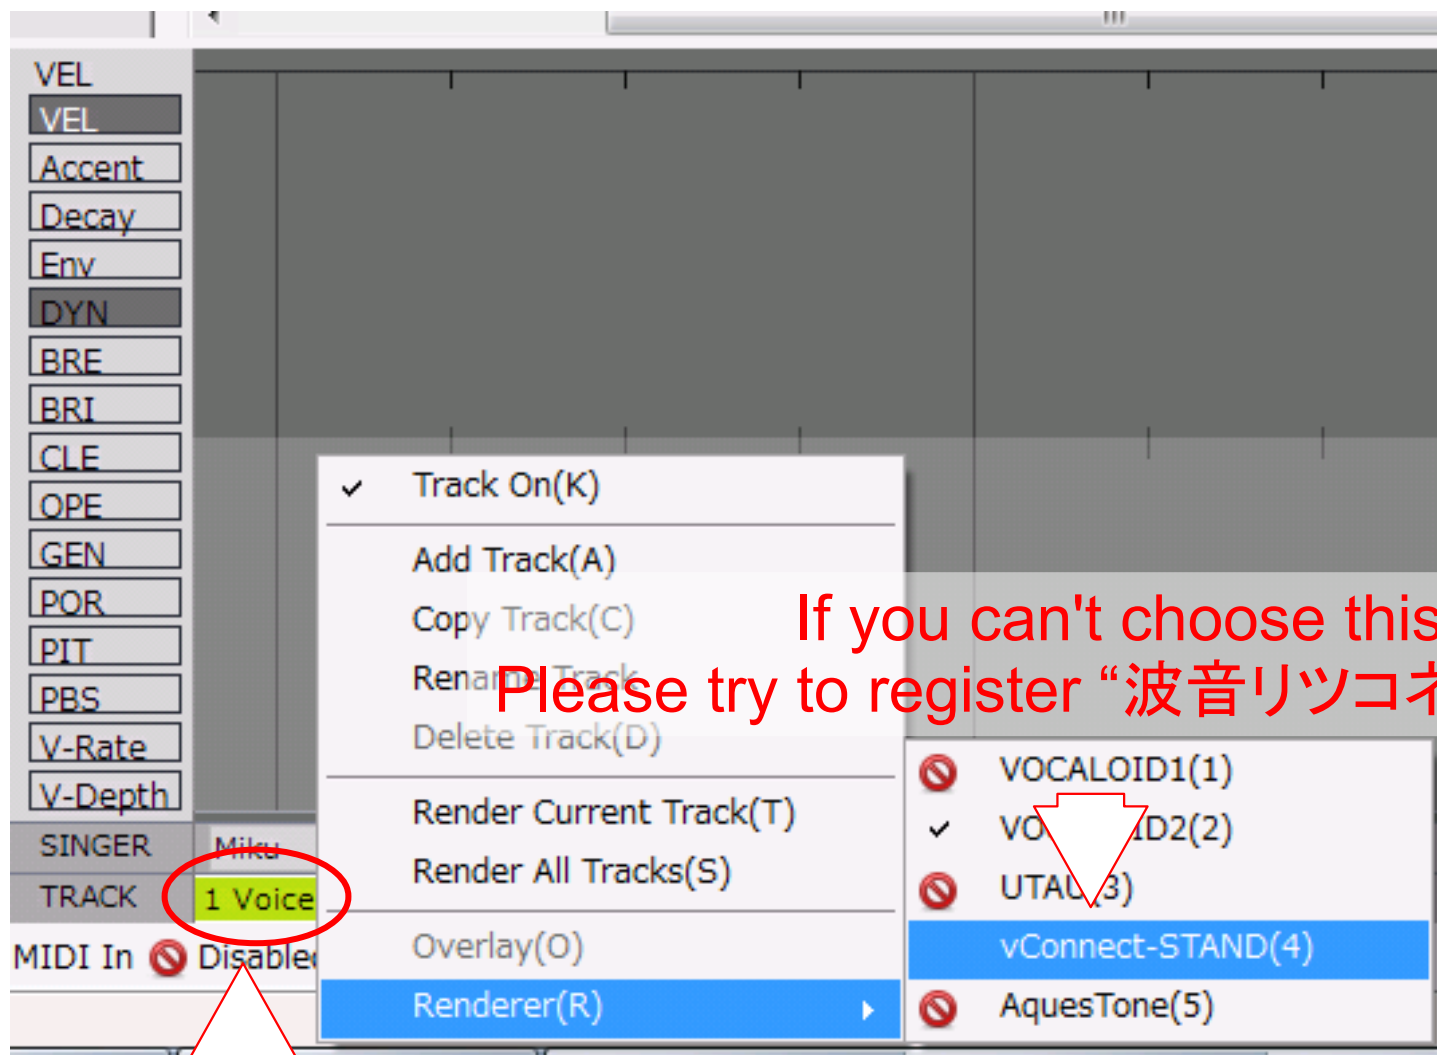

Style Settings(2/2)

- This setting is strongly recommended to synthesize smooth singing voice.
- Bend length affects much on singing styles. The most suitable setting depends on the song.

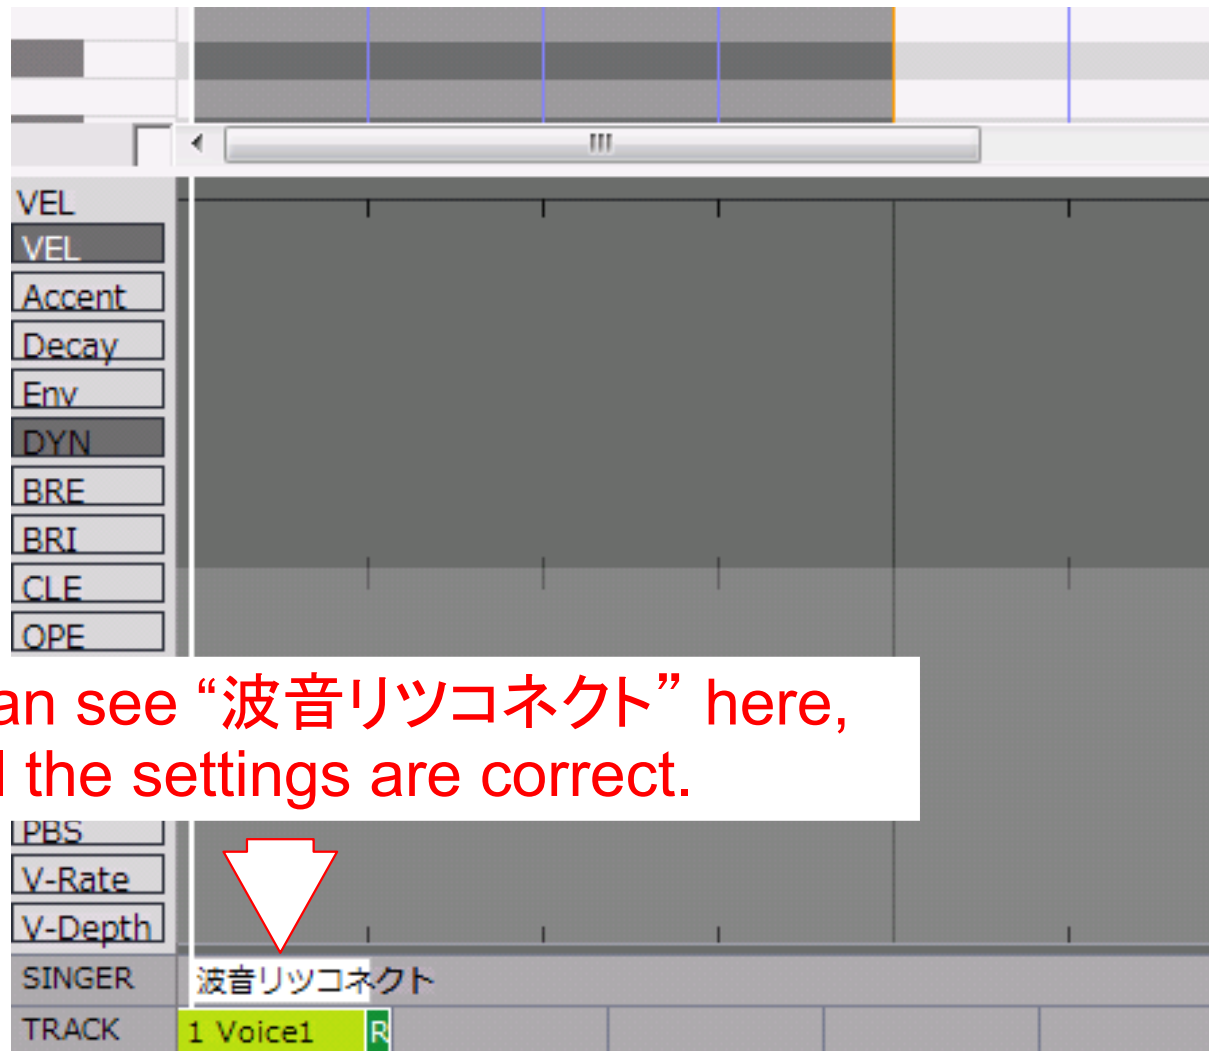

Select vConnect for Renderer(1/3)

If you can't choose this,
Please try to register “波音リツコネクト” again

Right click on a track name

Select vConnect for Renderer(2/3)

If you can see “波音リツコネクト” here,
All the settings are correct.

Select vConnect for Renderer(3/3)

These two are okay to synthesize

Red note means
Lyric “あ” does not exist
In oto.ini of the current singer

Have a fun! :)
